

EJAY AGUIRRE

ejay.aguirre03@gmail.com | (385)-530-4234 | Salt Lake City, UT, 84101

EDUCATION

Kahlert School of Computing, University of Utah

Salt Lake City, UT

Bachelor of Science in Data Science, Minor in Environmental Sustainability Studies

Northern Marianas College

Saipan, MP

Associate of Arts in Liberal Arts Emphasis in Pre-Engineering, Magna Cum Laude Honors

May 2022

SKILLS

Technical: Python, R, SQL, Jupyter, Java, Git, MATLAB, Data Pipelines (ETL), APIs, GIS

Data Science: Data engineering, time-series & statistical analysis, biosignal analysis, reproducible workflows

General: Scientific Writing, Project Management, Communication, Time Management, Research

EMPLOYMENT

University of Utah

Salt Lake City, UT

Neuroergonomics and Occupational Biomechanics Laboratory | Research Assistant

April 2025 - Present

- Proposed an independent research project on occupational noise, muscle fatigue, and **EMG** analysis that was accepted for funding, supporting the lab's broader work on worker safety and ergonomics.
- Collected and supported experimental data acquisition using **Biosemi** and **E-Prime** systems to support ongoing research projects from senior researchers.
- Analyzed EMG and biomechanical signals in **MATLAB/EEGLAB** to investigate how workplace conditions affect muscle fatigue and worker safety.
- Presented early findings at the University of Utah Undergraduate Research Symposium and the Rocky Mountain American Society of Biomechanics regional meeting.

University of Utah Health

Salt Lake City, UT

IT Support Technician

October 2025 - March 2026

- Supported **SharePoint Online** migration workflows, including site provisioning, permissions mapping, and data transfers, ensuring data integrity through validation checks.
- Triage IT tickets and walked users through **SharePoint/OneDrive** basics (access, syncing, versioning), escalating cases, and documenting fixes to build repeatable workflows.

Ocean Observatories Initiative

Woods Hole, MA

Data Analyst Intern

June 2025 - August 2025

- Developed **Python** scripts and **Jupyter Notebook** pipelines to retrieve, clean, and aggregate ~12 years of in-situ water temperature and CTD data via **APIs** and **ERDDAP**, streamlining time-series data.
- Created publication-quality plots in **Matplotlib** & **ggplot**, overlaying ENSO phases on temperature trends across multiple stations, highlighting the climatic phenomena and accessibility to data.
- Authored comprehensive documentation of the **ETL-style** notebooks, ensuring reproducibility and handoff readiness for interdisciplinary research teams.

C.O.M.P.A.S.S | alternative REU

Saipan, MP

Data Researcher Lead Intern

June 2024 - August 2024

- Designed and implemented a green roof model analyzing soil composition, moisture retention, and evapotranspiration, supporting stormwater management **research** for rural development.
- Conducted correlation and t-test analyses in **Python**, interpreting results to inform actionable conclusions; authored a research chapter documenting the project for future publication.

University Centers for Excellence in Developmental Disabilities

Hawaii, HI

Student Trainee

June 2023 - January 2024

- Assessed educational and **assistive-technology** needs of individuals with developmental disabilities, applying cultural competence and developmental disability policy frameworks.
- Collaborated with **interdisciplinary** professionals and community advocates to design inclusive support solutions, building experience in cross-disciplinary communication and **accessibility** practice.
